

POULTRY

FEED HOPPER FOR DRY MASH

Device May Be Made of Any Size to Suit Flock—Slanting Top Keeps Fowls From Roosting.

I find this to be a very good feed hopper for dry mashes. The dimensions given are those of my hopper, but it may be made in any size to suit the size of your flock, writes Mrs. Leo

Hopper for Mash or Grit.

H. Johnson of Langsville, O., in Farmers Mail and Breeze. It may also be made into two or more compartments by putting in partitions and so feed shells, dry mash, grit, etc., at the same time. Notice that it has a slanting top. By setting it against the wall the chickens cannot roost on it. It also has a slanting bottom which makes the contents work to the front.

LEARN TO FEED PROFITABLY

Most Difficult Period in Feeding Starts With Baby Chicks—Good Mixture for Dry Mash.

Profitable feeding is something every farmer and poultryman must learn. Without it the most vigorous chicks that were ever hatched could not develop into standard, mature birds. The most difficult period in feeding starts with the baby chicks. If stunted when small, it is "runty" forever; if fed and cured for properly when young it can rustle for itself to a limited extent later.

The baby chick should never be fed until forty-eight hours old, and then a mash of coarse bran and charcoal mixed with hard-boiled eggs is all it will need for two or three days. After the first few days it may be fed mixed grain five times daily, and the mash of bran and eggs three times daily. A good chick ration may be had by mixing ten pounds cracked wheat, ten pounds cracked corn (sifted) and ten pounds, "steel cut" oats. The dry mash is made up of ten pounds bran, ten pounds shorts, five pounds corn meal, five pounds meat scraps and two and one-half pounds charcoal. Feed sour milk if available, giving chicks all they will consume.

ROOSTS MADE VERMINPROOF

Gas Pipes Used for Supports, Instead of Wooden Timbers, Aids in Keeping Parasites Away.

One of the largest poultrymen uses gas pipes instead of the usual wooden fixtures to support his roosts, and thus makes them almost entirely free from mites and other parasites which are so troublesome to poultry raisers. The pipe is bent as shown in the illustration and to hold the roosts in

Gas Pipes Support Roosts.

place holes are bored at proper intervals, through which bolts are inserted, projecting far enough above the pipe to hold the roosts in position. The roosts are made as usual and are laid on the pipe without fastening, thus making it easy to remove them for cleaning, etc. The pipes need not be over three-fourths of an inch in diameter, and will be found to be one of the most satisfactory supports for roosts yet devised.

MAKING MONEY FROM SQUABS

Little Chance for Profit With Pigeons Unless Birds Are Kept Free From Insect Parasites.

There is very little chance of making money from squabs unless through cleanliness pigeons can be kept comparatively free from disease and insect parasites. The stock should be carefully watched and any sick birds removed from the breeding pens. The house should be kept dry, clean, well ventilated, and free from drafts. The yards should be kept clean either by scraping the surface and adding fresh sand or gravel or by cultivating the land and planting it to grain if possible. Only good, sound grain should be fed.

Lower Fowls Vigor.

With the general exception of well-cared-for, open-range flocks, the conditions under which practically all fowls are kept, result in a constant tendency toward the lowering of the birds' constitutional vigor.

Do You Consider Expense As Well As Appearance?

Don't you often pay more than you can afford just to be sure that you will not get badly styled, poorly made clothes?

You don't have to pay a premium to safeguard your appearance when you buy

Styleplus Clothes \$17

The same price the world over.

They are for the men who consider their dollars as well as their appearance. And the price \$17 fits the income of more than 63 out of 100 men. Guaranteed all-wool fabrics, high grade tailoring, plus the styling of a fashion artist whose work is famous.

Come in and see one of these suits that are nationally popular. We have all the new cloth conceptions and a range of models that consider sons, fathers and grandfathers—all tastes, all years.

Style plus guaranteed wear for \$17. You cannot beat it, so why not try it?

Now Well

"Thedford's Black-Draught is the best all-round medicine I ever used," writes J. A. Steelman, of Pattonville, Texas.

"I suffered terribly with liver troubles, and could get no relief. The doctors said I had consumption. I could not work at all. Finally I tried

THEDFORD'S BLACK-DRAUGHT

and to my surprise, I got better, and am to-day as well as any man." Thedford's Black-Draught is a general, cathartic, vegetable liver medicine, that has been regulating irregularities of the liver, stomach and bowels, for over 70 years. Get a package today. Insist on the genuine—Thedford's. E-70

The greatest thing in modern feeding is MOLASSES. It cuts down the feed bill and builds up the stock.

RED SHIRT HORSE AND MULE MOLASSES FEED

It's something the horses and mules like—gives them an appetite—starts the saliva running and aids digestion. Far superior to an all grain feed. Give your horses and mules a treat, and at the same time save money.

Our RED SHIRT (first grade) Horse and Mule Molasses Feed contains Corn, Oats, Ground Alfalfa, made appetizing with salt and pure cane molasses, and analyzes as follows:

Protein 10%; Fat 3%; Fibre 12%; Carbohydrates 57%

PIEDMONT HORSE & MULE MOLASSES FEED Second Grade—Analyzes: Protein 9%; Fat 2%; Fibre 12%; Carbohydrates 55%.

SWAMP FOX HORSE & MULE MOLASSES FEED (3rd Grade) This analyzes: Protein 9%; Fat 2%; Fibre 12%; Carbohydrates 55%.

PERFECTION HORSE & MULE FEED (Dry Mixed) We manufacture also a dry mixed (no Molasses) Horse and Mule Feed, which analyzes: Protein 12%; Fat 3%; Fibre 12%; Carbohydrates 57%. This is composed of straight grain and ground Alfalfa Meal.

RED SHIRT DAIRY FEED

First Grade: A balanced ration containing Molasses. Cattle are very fond of it—keeps them in good condition. Increases the flow and enriches the quality of the milk at a reduced cost of feeding. Contains ground Corn, C. S. Meal, Wheat Middling, Ground Alfalfa, Pure Cane Molasses and Salt. Analyzes: Protein 15%; Fat 3%; Fibre 12%; Carbohydrates 60%.

PIEDMONT DAIRY FEED Second Grade—Analyzes: Protein 12%; Fat 2½%; Fibre 12%; Carbohydrates 55%.

RED SHIRT HOG FEED A combination of Digestive Tankage, Ground Corn, Rice screenings; very fattening. Keeps the hogs in good condition.

We manufacture also RED SHIRT Scratch Feed and RED SHIRT Baby Chick Feed.

"SEVEN EGGS A WEEK" HEN MASH Composed of Ground, Corn, Ground Oats, Ground Wheat, Barley, Maize, Rice, Cottonseed Meal, Cow Peas, Meat Meal and Linsed Meal. Analyzes: Protein 18%; Fat 4%; Fibre 12%; Carbohydrates 40%.

As shown on the bags in our ad, nearly all of our feed is made from Carolina products, even to the bags and twine. We are, therefore, in the market for Oats, Corn, Wheat, Alfalfa Hay and any other kind of Hay.

We also carry a full stock of GRAIN, HAY AND STRAW.

Our feeds as shown above are mixed on scientific principles to furnish the greatest nourishment at the lowest cost. Let us show you how to cut your feed bills down. Write us for prices, etc.

IT MAKES HOME OH! SO HAPPY To Have A BANK ACCOUNT

Copyright 1909, by C. E. Zimmerman Co.—No. 44

OF all the unhappy homes, not one in a hundred has a bank account and not one home in a hundred who has a bank account is unhappy. It seems almost foolish to put it off any longer, when it is such a simple, easy matter to start a bank account.
